DID YOU KNOW?

The intermediary charges a substantial margin, ranging from 50% to 100%, to both farmers and consumers, thereby increasing costs and reducing profitability for the farmers.

Problem Statement

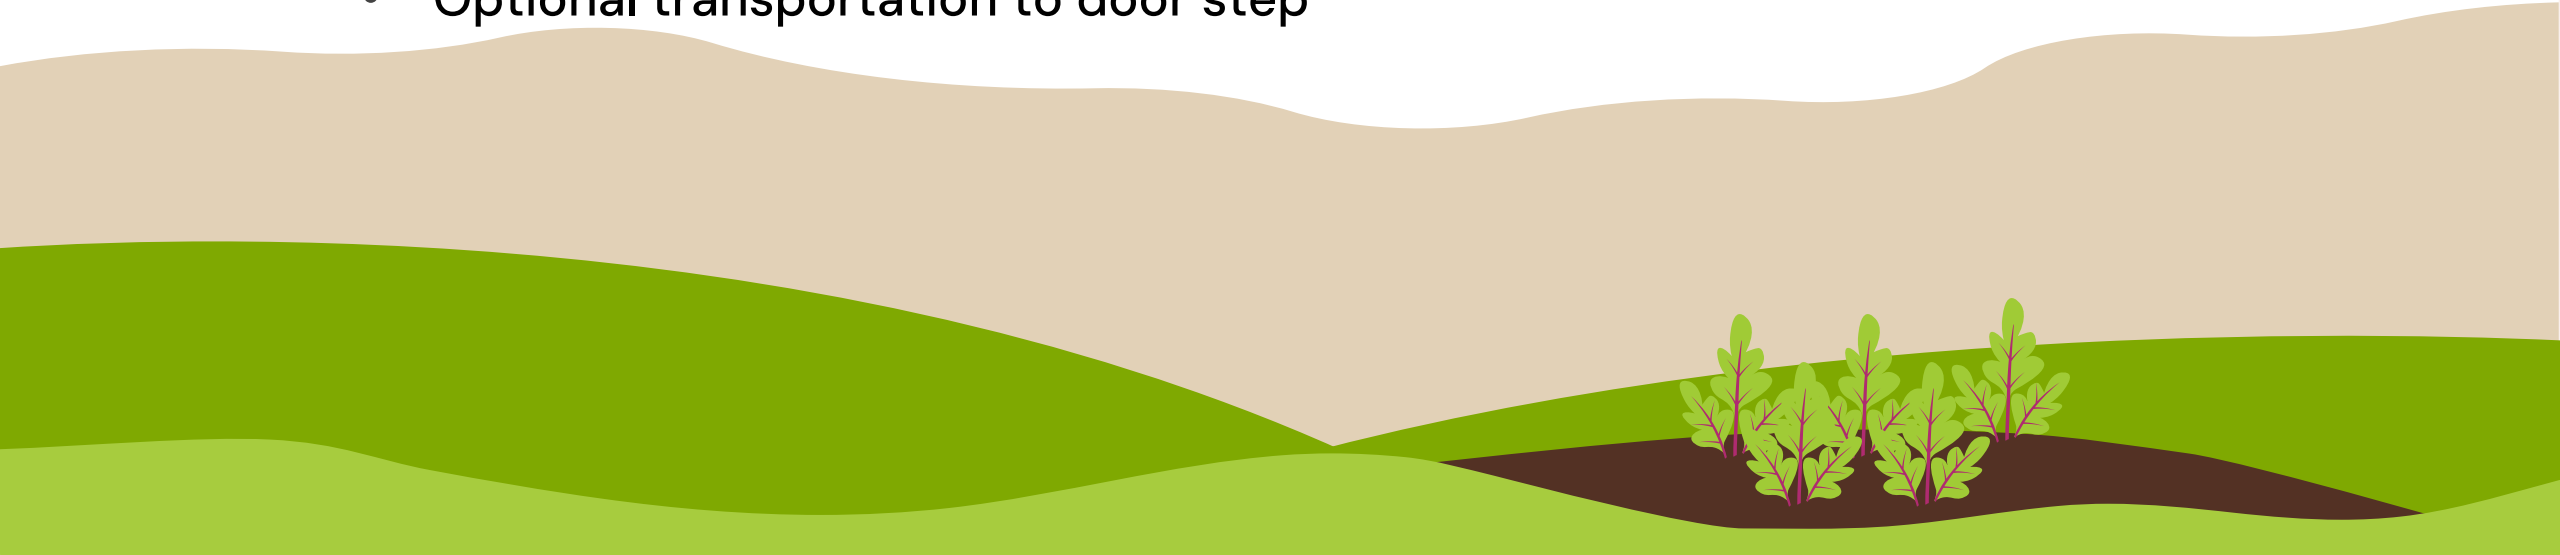

- Farmers are underpaid due to exploitative middlemen.
- Shopkeepers and consumers pay inflated prices.
- Lack of transparency and support services (plant care, livestock health).
- Limited access to trusted agri-inputs.

Our Solution

Farm2You Mobile App

- Direct connection: Farmer ↔ Shopkeeper & Farmer ↔ End Consumer
 - Organic vegetables and fruits for Health conscious people
 - Tiered pricing model: Retail (small qty) vs Wholesale (bulk qty)
 - Online consultations: Plant Pathologists & Veterinary Doctors
 - Online Livestock market place
 - Agri-input marketplace: Fertilizers, seeds, pesticides, tools via local sellers
 - Optional transportation to door step
- 

Easy to use App

Farm2You app is designed to be highly interactive and visually intuitive, ensuring accessibility for farmers with limited literacy. By incorporating image-based navigation alongside voice instructions in local languages, **Farm2You** provides a user-friendly experience that enables farmers to easily access its features without relying heavily on text.

Mission, Vision & Objective

Mission Statement

To empower Pakistani farmers by providing direct market access, fair pricing, and expert agricultural guidance while ensuring fresh, affordable produce for consumers.

Vision Statement

To become Pakistan's leading agricultural ecosystem platform, transforming the way farming communities connect with markets and access professional services that will be one window solution for farmer.

Mission, Vision & Objective

Strategic Objectives

- **1st Year:**
- Onboard **3,000 farmers** and **30,000 users** across **Karachi** and **Southern part of Sindh**.
- Introduce **Online** and **physical consultations** of **Plant Pathologists**, with **Agri-input marketplace**.
- **After 1 Year:**
- Introduce **livestock marketplace** with **online** and **physical consultation** of **Veterinary Doctors**.
- **After 2 to 3 Years:**
- Expand to **3 cities** with **10,000 farmers** and **100,000 active users**.
- Become the dominant agri-tech platform in Pakistan.

Lean Canvas Model

Farm2You
From Fields to Families

LEAN CANVAS MODEL Farm2You Mobile App

From Fields to Families – Direct, Transparent, Fresh

1. PROBLEM

- Farmers receive low prices due to middlemen exploitation.
- Consumers and shopkeepers pay inflated prices.
- Lack of direct access between farmers and buyers.
- Limited availability of plant pathology and veterinary consultation services.
- Difficulty accessing trusted agricultural inputs and livestock marketplace.

2. CUSTOMER SEGMENTS

Primary Customers:

- Small and medium-scale farmers
- Grocery stores and shopkeepers
- Urban and peri-urban consumers

Secondary Customers:

- Plant pathologists
- Veterinary doctors
- Agricultural input suppliers
- Livestock farmers and buyers

3. UNIQUE VALUE PROPOSITION (UVP)

Farm2You
*From Fields to Families –
Direct, Transparent, Fresh*

Farm2You connects farmers directly with consumers and shopkeepers, ensuring fair prices, fresh produce, expert agricultural support, and easy access to agri-services through one digital platform.

4. SOLUTION

- Direct farmer-to-consumer and farmer-to-shopkeeper marketplace
- Retail and wholesale pricing system
- Online and physical consultations with plant pathologists and vet doctors
- Livestock buying and selling platform
- Agri-input marketplace (fertilizers, pesticides, tools, seeds)
- Optional doorstep delivery services

5. CHANNELS

- Facebook, TikTok, WhatsApp marketing
- YouTube influencers
- Physical farm and shop visits
- Referral programs
- Farmer expos and agricultural fairs
- SMS/WhatsApp campaigns in local languages

6. REVENUE STREAMS

- Commission on transactions
- Consultation service fees
- Delivery charges
- Agri-input sales commissions
- Livestock marketplace commissions

7. COST STRUCTURE

- App development and maintenance
- Employee salaries
- Marketing and advertising expenses
- Warehouse and operational costs
- Influencer and event expenses
- Logistics and delivery management

8. KEY METRICS

- App downloads
- Monthly Active Users (MAU)
- Number of registered farmers
- Number of onboarded shopkeepers
- Monthly transaction volume
- Repeat customer rate
- Customer acquisition cost (CPA)

9. UNFAIR ADVANTAGE

- **First Market Mover Advantage** – First dedicated farm-to-market platform in Pakistan.
- Local-language and voice-assisted app for low-literacy farmers
- Integrated ecosystem combining marketplace, expert consultations, livestock, and agri-inputs
- Transparent pricing with reduced dependency on middlemen
- Strong focus on rural Pakistan and underserved farming communities

Our Mission: To empower Pakistani farmers by providing direct market access, fair pricing, and expert agricultural guidance while ensuring fresh, affordable produce for consumers.

Focus Area: Pakistan (Phase 1: Karachi & Southern Sindh)

Vision: To become Pakistan's leading agri-tech platform.

Market Analysis

Target Segments

Primary Segments

1. Farmers

- Small to medium-scale farmers
- Tech-adoption willing progressive farmers
- Annual income: PKR 400,000 – 1,500,000

2. Shopkeepers/Retailers

- Grocery store owners
- Fruit/vegetable vendors
- Purchase volume: 50–500kg weekly

Market Analysis

3. End Consumers

- Urban middle-class families
- Health-conscious consumers Monthly grocery
- Grocery budget: PKR 15,000 – 40,000

Secondary Segments

- Plant pathologists and veterinary doctors
- Agricultural input suppliers like seeds, fertilizer, insecticide, pesticide
- Livestock farmers and buyers

Positioning Strategy

Positioning Statement:

For farmers and agri-buyers seeking transparency and better pricing, Farm2You is a mobile app that eliminates middlemen and provide maximum profit to farmers, offers expert consultations, and facilitates direct trade in crops, livestock, and farming essentials.

Unique Selling Propositions (USPs):

- Fair and transparent pricing for both farmers and buyers.
- Separate pricing logic for shopkeepers and end consumers.

- Consumer will get vegetable on commissioner rate-list or may be less.
- Easy access to plant pathologists & vet doctors online and physical easily.
- Easy sale purchase of Livestock and agri-tools.

Marketing Plan

Target Segments

Primary:

- Farmers (direct producers of crops, vegetables, fruits, and livestock)
- Shopkeepers and small grocery stores
- End consumers in peri-urban, and urban areas

Secondary:

- Plant pathologists & veterinary doctors
- Suppliers of pesticides, tools, fertilizers

Marketing Plan

Key Marketing Channels

Channel	Strategy
Social Media	Facebook, TikTok, WhatsApp — short videos, testimonials, farmer success stories
Physical Visits	Visit Farms, shops, grocery stores and market places
SMS/WhatsApp Campaigns	Targeted promos in Urdu/local languages
Referral Incentives	Farmers/retailers earn credits for new signups
YouTube (Influencers)	Partner with rural/urban farming influencers
Farmer Events	Participate in farmer expos, agri fairs

Marketing Strategies

A. Awareness Stage (Months 1–3)

- **Brand Launch:** Regional brand identity with a slogan *"Kisaan Ka Haq, Kissan Tak!"*
- **App Launch PR:** Announce on agriculture and tech platforms
- **Giveaways:** Free online plant pathologist consultations for first 500 farmers
- **Influencer Campaign:** Local YouTubers, visit real farms using the app

B. Engagement Stage (Months 4–6)

- **Referral Programs:** Each successful referral = 200 PKR credit to wallet
- **Live Sessions:** Weekly plant pathology/vet Q&A sessions on Facebook
- **Success Stories:** Highlight farmers earning 40–100% more

Marketing Strategies

C. Conversion Stage (Months 7–12)

- **Bulk Pricing for Shopkeepers:** Discount tiers based on volume
- **Seasonal Sales:** Offer seasonal sale on events like Eid, 14 Aug and 11.11.
- **Tool Bundles:** Cross-sell tools and pesticides with crop sale

The 4P's of Marketing

P	Description
Product	App connecting farmers directly to buyers (retail and wholesale), expert consultations, chemicals, tools & livestock marketplace
Price	Differential pricing (retail vs wholesale), minimal commission on expert fees, affordable pricing for consultations
Place	Mobile-first, localized strategy; focus on Punjab, Sindh, and KP urban and rural areas
Promotion	Mix of digital (Facebook, TikTok), YouTube influencer and on-ground campaigns (demos, expos), Farmer Events

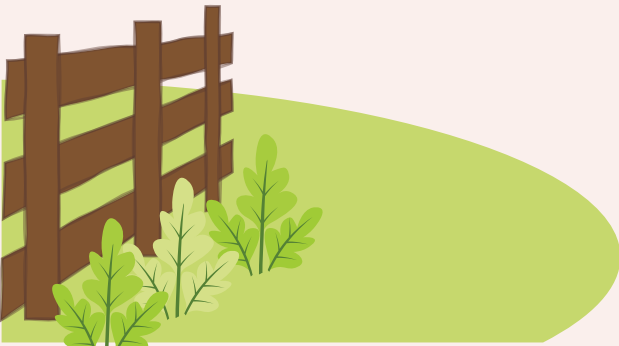

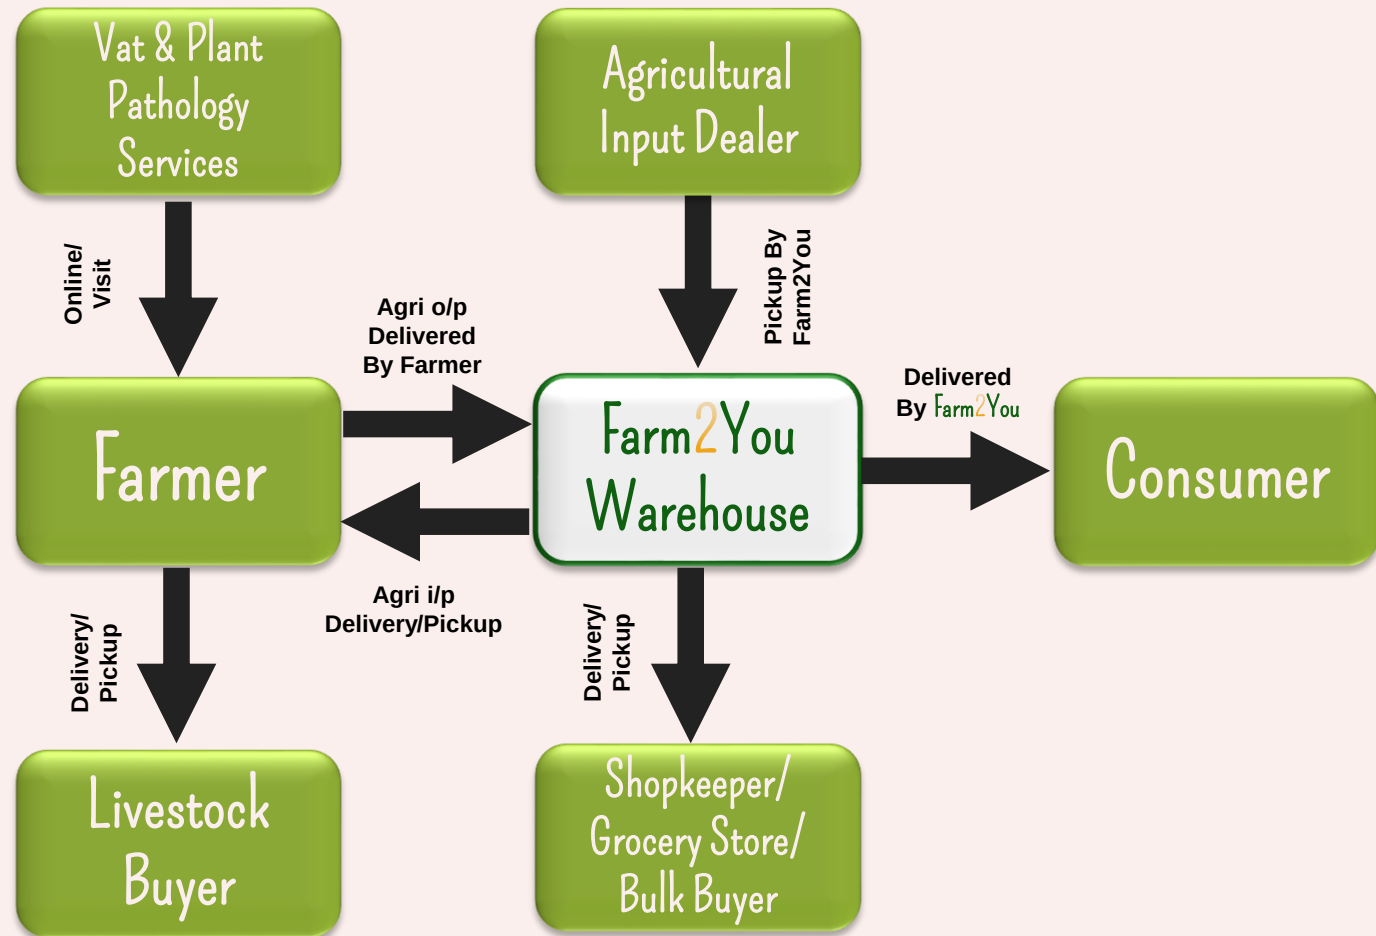

Implementation Plan

Phase	Timeline	Activities
Pre-Launch	Month 1	Finalize app MVP (Minimal Viable Product), onboarding farmers, plant pathologists, agricultural supply dealer, register brand name & domain.
Launch	Month 2–3	Run awareness campaigns on FB/YouTube/TikTok, hold local demos in Punjab & Sindh villages, activate referral rewards.
Growth	Month 4–6	Execute influencer campaigns, publish expert guides, onboard more shopkeepers, start loyalty rewards.
Expansion	Month 7–12	Onboard at least 3,000 farmers and 20,000 users across Southern part of Sindh including Karachi . Expand team of Plant Pathologists for Online and physical consultations , with Agri-input marketplace .
